

The Future of Advertising!

QUESTIONS AND ANSWERS ON THE QWERT NETWORK

WHAT IS THE QWERT NETWORK?

Based around the first 5 letters of over 300,000,000 keyboards.
The Qwert Network averages over 200,00 hits and provides over 50,000 pages of information and over 140,000 images of local information, every month

WHO SUPPORTS QWERT?

We have strong relationships with Rotary Down Under, Central Coast Tourism, Coast FM 963 and many local community groups that we donate to.

WHO ARE NET REGISTRY?

Net Registry will host your site and offer 24/7 support. They are the second largest providers of domain name service providers in Australia.
You can contact them anytime on 1800 78 80 82. Just remember to have your account details ready.

GET ONLINE IN 2009.

We have all seen the sad demise of the local newspaper but it is a sign of the times that written exposure is just not the beneficial way for a business to advertise in 2009. 85% of people looking for a business, trade or service look online these days through Google.

If you are serious about having your business found, advertising online is the most cost effective and successful way of doing this.

Problem is, you can build the most expensive and incredible website but without the domain name being right, you may as well not have bothered.

The only way that google will find your website is with a google friendly domain name and this is where the Qwert Network can help you..

We can build you a website specifically for your business WITH a google friendly domain name, that, once built, should very quickly be bringing traffic to your site.

ONCE BUILT, WHEN DOES MY SITE GO LIVE?

As soon as we have all the words and pictures that you wish to have on your site. If you find this difficult, we are here to lend a helping hand.

WHAT IS A BANNER AD?

It is a banner which appears randomly on qwert pages as people look at our pages. When clicked on, it also links directly back to your website.
